Agenda

10:30 Wellcome Note VDMA

10:40 Thyssenkrupp Industrial Solutions AG

Thyssenkrupp #newpolysius -Technologies for a greener future

11:00 FLSmidth Pfister GmbH

Getting dosing and feeding right to minimize the CO2 footprint - maximize clinker & fuel substitution

11:20 BEUMER Maschinenfabrik GmbH & Co. KG

Alternative fuel handling, bucket elevators, apron conveyors, truck loading, palletizing and packaging

11:40 Thorwesten Vent GmbH

Sustainable explosion protection for explosive dusty bulk

12:00 Christian Pfeiffer Maschinenfabrik GmbH

Reducing clinker factor with efficient grinding plants

12:20 Scheuch GmbH

Innovative filter technology EMC and retrofit ESP and Scheuch equipment

12:40 Claudius Peters Projects GmbH

Modular systems components for silo discharge and pneumatic conveying

13:00 Haver & Boecker OHG

Premium partner and trendsetter for cement and building products & minerals

13:20 Vollert Anlagenbau GmbH

Advantages of building with precast concrete when it comes to affordable housing

13:40 Grenzebach BSH GmbH

Gypsum – From the raw material to the finished plasterboard

14:00 BRAUN Rückbautechnologien GmbH

Concrete cutting and drilling machines made in Upper Austria

14:20 Foundation for Climate Protection and Carbon Offset KliK

Ghana-Swiss climate agreement: carbon finance to support the decarbonization of the building and cement sector.
